### Description

Brookfield View is a brick-built property under a slate roof. It has some rendered elevations and stands out from the surrounding properties. The original property dates back to the 1800's, however, it has gone through a scheme of modernisation and refurbishment and currently provides modern living accommodation but with elements of original features.

The ground floor accommodation comprises a modern kitchen with central island, integrated appliances and a Belling electric oven and hobs. Adjacent to the kitchen is the dining/breakfast area with French doors leading onto the patio area. There is a utility and cloakroom adjacent to the back door. The main living area consists of a large living room with glazed conservatory connected, leading out onto the patio and garden area. Off the living room is a handy space, currently used as an office.

The first floor comprises a master bedroom with a walk-in wardrobe and en-suite. There are three further double bedrooms and a family bathroom.

## Externally

The property is located off Longhill Lane and only a short distance from the A529. There is parking for two vehicles off the road, however, the main parking is through a smart timber gated access and onto a driveway. There is plenty of parking available and a double garage is located at the end of the garden. The garage could be considered for alternative uses, including a workshop or potential conversion to an office space.

To the rear of the property is a patio and garden area, perfect for entertaining. Beyond the garden are the equestrian facilities, which include an L-shaped timber range of stables with a current layout of two stables and a large store/tack area. There is a smart, well drained, 25m x 45m arena professionally built by Landtech Solutions with a silca sand and fibre surface and circa 2 acres of well fenced paddocks.

The stables are connected to mains water and power and have a concrete surface and cantilever roof.

Outriding from the property is gained via a network of quiet country lanes with a few inter-connecting bridle paths.
